

Launch Sheet for **Starting a Project for Custom USB Flash Drives**

Also known as; USB Memory Sticks, Jump Drives and Thumb Drives.
All GLMT models are USB 2.0

About our Process

Great lakes Media Technology provides high quality flash drives along with 100% guaranteed data transfer. Our process not only includes data duplication but also adds the additional step of verification to assure that it perfectly matches your input files on each copy - all done in our facility here in Mequon, Wisconsin. Lastly, color print of your logo is also available.

Starting Your Project

- 1) We prefer you supply an actual USB Flash Drive as your master so we may match the directory.
- 2) If a USB Flash Drive is unavailable, we accept; CD-r, DVD-r and files sent via our ftp site (ftp.glmt.com) or email.
- 3) If we create the master for duplication (FTP), please send us a print out of your desired directory hierarchy.
- 4) Artwork: Please supply EPS/PDF/AI file within the specified print areas (see Stock Options PDF for print areas). PMS colors must be specified.
- 5) Standard Turn - 10 working days, Rush turns available for additional fee.
